KomfortMax Desert chrome asyncho
(feet)

This is an ergonomic industrial chair of high durability. Like all ROSART chairs it is made of high-quality materials. The fabric it's upholstered with is highly resistant to fire (from a cigarette or a match), which makes it suitable for public places.

Suitable for: factories, offices, computer workstations, service points, shops, supermarkets, warehouses, workshops, shops.

Two-year guarantee, trouble-free use in industrial environments.

About us

The company began operations in 1986. Initially, we dealt with the production of interchangeable knives for tanneries (planing machines), followed by the production of hand-operated internal transport trolleys. Since 2003, we have been manufacturing industrial chairs, stools and hokers by the ROSART brand.

The use of chairs, stools and industrial hokers

- Production chairs, stools and hokers: workshop (for example: plastics processing, metalworking, welding), assembly lines, for companies packaging products, for manufacturers of electro equipment, for the clothing industry (sewing), for the food industry, for the pharmaceutical and chemical industries
- Chairs, stools and hokers for commercial and service outlets: for shops, markets, warehouses, wholesales, sales showrooms, cash boxes
- Chairs, stools and hokers for the medical industry: laboratory, for health institutions
- Office chairs: for companies and institutions
- Chairs and stools for educational institutions: for the studio (e.g. computers, drawing, libraries), for the biological-chemical laboratory

Chairs, stools and hokers from the PUR line finished with integral foam are resistant to oils, grease, water and other dirt.

High quality confirmed by certificates

All our products are certified for safety, strength, durability and stability. Chairs, stools and hokers should be adapted to the nature of work and used in accordance with health and safety regulations.

Guaranteed high quality of materials used allows to use our products in extreme conditions.

Warranty

The chairs, stools and hokers produced by us are covered by a 2-year warranty. In the event of a defect, we will endeavor to ensure that the product is operational again within 48 hours of reporting.

As a standard, chairs, stools and hokers are fitted with plastic feet (No. 1).

Optionally, rubberised feet - non-slip feet (No. 2) are available at extra cost.

As a standard, chairs, stools and hokers are equipped with plastic castors for soft surfaces (eg carpets, etc.) (No. 3).

Optionally, castors with a flexible treadmill for hard surfaces (e.g. concrete, tiles, panels, etc.) are available at extra cost (No. 4).

Chairs and stools based on polyamide (ErgoPlus line) are equipped with plastic feet (raised) (No. 5).

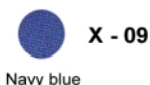

Optionally, wide and aesthetic adjustable armrests (No. 6) are available at extra costs.
